- Net sales of BizReach is forecasted to grow 30.3% on the assumption that strong demand for professionals will continue, although some companies including global tech companies have slowed down its hiring efforts
 - BizReach full year adjusted operating profit margin before corporate expense allocation is forecasted to be between 40-45%. BizReach investments larger in 2H
- For HRMOS, product development continues to be the priority
 - HRMOS full year adjusted operating loss before corporate expense allocation is planned to decrease YoY
- Business development continues in the Incubation segment. As they are early businesses, net sales fluctuation risk exists, although profitability will be maintained by controlling investments
- Although the impact of the economic uncertainty to recruitment is unclear, we will prioritize growth investments for BizReach, whilst managing business investments as appropriate

1Q Financial Results by Business

BizReach Financial Results

JPY 11.61Bn for 1Q. Hiring demand for professionals amongst Japanese companies continues to be strong

BizReach Business' Net Sales⁽¹⁾

JPY MM

- Strong demand for professionals continues, although some companies including global tech companies have slowed down their hiring efforts
 - The cumulative number of registered direct employers increased by 1,200 from 4Q of the previous fiscal year. Hiring needs among Japanese companies continue to be strong
- Although structural growth is expected, as the impact of the macroeconomy to recruitment is unclear, we are unable to provide a mid-term growth rate forecast
 - For FY2023/7, the financial forecast is unchanged at JPY 49.00Bn (30.3% YoY growth) based on the assumption that strong demand for professionals will continue

40.5% YoY growth for 1Q. Strong growth rate YoY, even as we compare against quarters that includes COVID-19 rebound

BizReach Quarterly Revenue Trend Comparison to same period previous year

BizReach Quarterly Net Sales Trend

- Although we observe slow down in hiring activities by some companies due to uncertainty in the global macroeconomy, increasing raw material prices and fluctuations in the financial capital markets, strong demand for professionals has continued as we observe increase in the number of job positions available on BizReach
- BizReach stable growth is supported by its diverse customer base across different industries and different company sizes
- Net sales growth rate will gradually slow down towards steady state level throughout FY2023/7 compared to the previous fiscal year which benefited from the rebound hiring demand from COVID-19

Marketing investments and expansion of sales team executed as planned, resulting in profit levels in line with plan for 1Q

BizReach Adjusted Operating Profit before Corporate Expense Allocation and Margin⁽¹⁾⁽²⁾⁽³⁾

Adjusted operating profit margin before corporate expense allocation

Adjusted operating profit before corporate expense allocation
JPY MM

- Adjusted operating profit margin before corporate expense allocation varies depending on net sales and marketing campaigns of each quarter. As BizReach marketing investments is higher in 2H, margins usually decrease over full year
- In 1Q, online marketing and TV commercials conducted for acquisition of job seekers. Expansion of sales team for acquisition of direct employers. As a result, 1Q margin landed as planned
- Adjusted operating profit margin before corporate expense allocation for full year of FY2022/7 is temporarily high due to high sales growth driven by the rebound hiring demand from COVID-19. The forecast of 40-45% for FY2023/7 is unchanged

Visional Group Strategy and Our Future

Persistent Creation of New Possibilities.

Our vision is to tap into the power of the internet to support the innovative progress of our world by persistently transforming social obstacles into new possibilities.

Our mission is to achieve “continuous contribution to impact the world.”

With these ambitions, we aspire together as partners to create unique ecosystems and movements that accelerate the world to a tomorrow in which we desire to be

**Supporting new possibilities for
Manpower, Goods and Capital**

Building on the proven set of principles and approaches that enabled our prior successes, we will continue to evaluate all potential areas of growth that will emerge from seismic shifts and technological innovation in Japan

Guidelines for deciding on a market and a business model

- ✓ Potential for dynamic growth emerging from structural shifts and technological innovation in Japan
- ✓ Obvious need for digital transformation (DX) in the industry
- ✓ Large total addressable market (TAM)
- ✓ Clear trend and benchmark in overseas markets
- ✓ Existence of established competitors with significant profitability

MVP⁽¹⁾ and lean startup organization

- ✓ Start with a small team
- ✓ Incubate businesses for 2-3 years in “Build-Measure-Learn” feedback cycle to check business models and pivot if necessary
- ✓ Invest further when the business model is prepared to scale

Japan has a high portion of employees with long tenure.

Liquidity in the labor market is required to shift labor force to segments of higher labor demand

Global Comparison of Employment Ratio By length of Service⁽¹⁾
%

Why Increased Labor Liquidity is Required

- ✓ Mid-career hiring required to address decreasing work force caused by shrinking working-age population and the number of new graduates entering the work force in the long term
- ✓ Professionals required to address changes in the business environment and business models, and to build a diverse and inclusive organization
- ✓ Miss match of supply and demand in labor force as industry structures change. Shifting labor force to segments of higher labor demand required
- ✓ Labor productivity drives wage increase

Note: (1) From the Ministry of Health, Labour and Welfare "Analysis of the Labor Economy, 2022 Edition – Issues in Promoting Labor Mobility through Support for Workers' Independent Career Development" in September 2022

Japanese recruitment market is undergoing a structural stage of expansion due to the ongoing changes in workstyle, which will increase liquidity in the Japanese labor market going forward

Significant Room for Job Mobility in Japan

2021

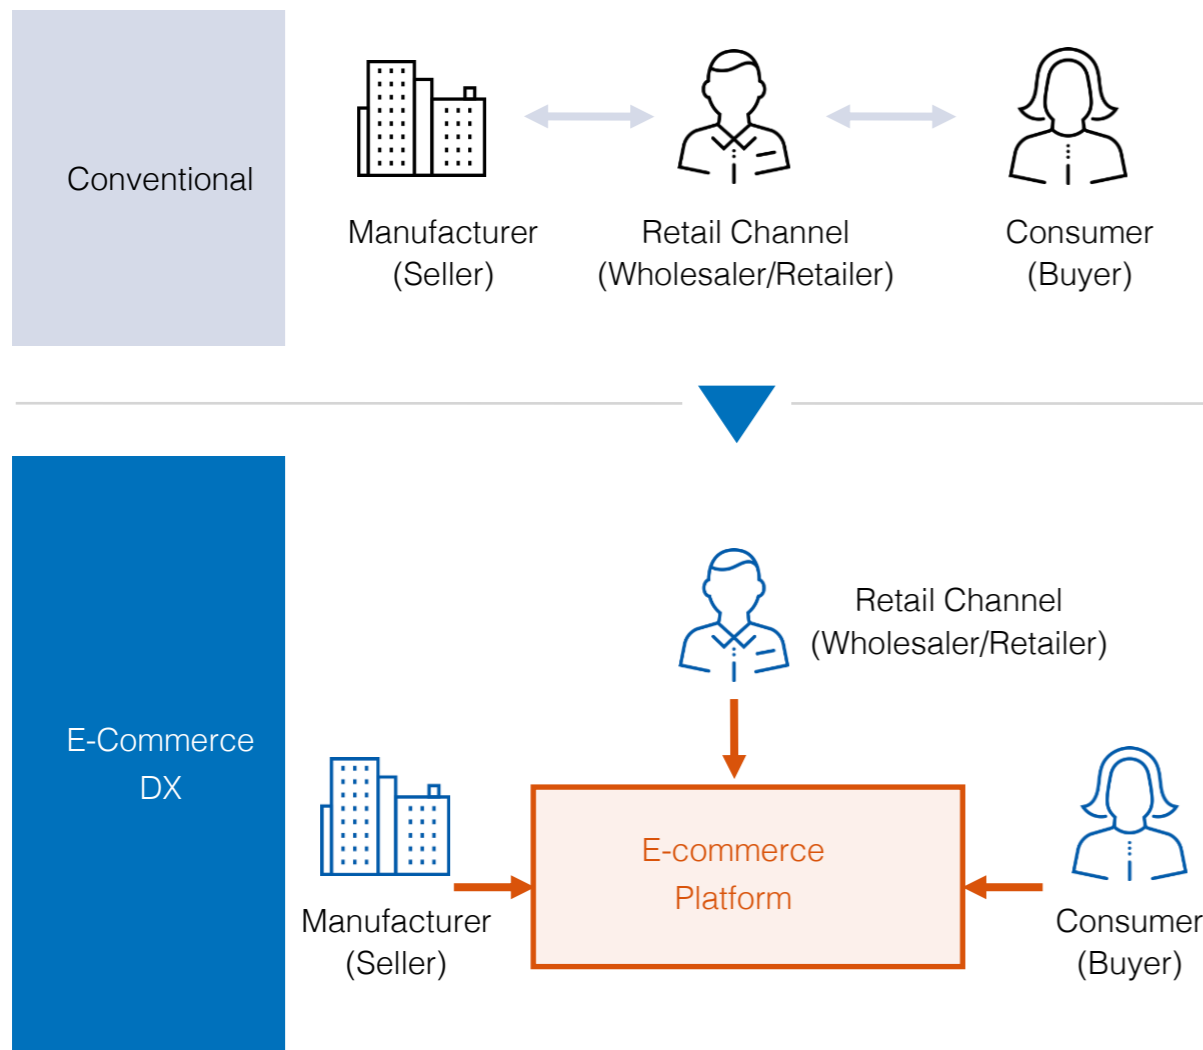

Acceleration of Workstyle Shifts in Japan

- ✓ Conventional workstyle no longer sustainable due to a mismatch of corporation and worker life spans
- ✓ Performance-based workstyle with clear job descriptions accelerates the job change movement
- ✓ “Direct Recruiting” becomes essential for employers as the war for talent accelerates
- ✓ The shift to remote work caused by COVID-19 is expected to further drive this movement

Similar to the structural transformation of the retail market caused by e-commerce, BizReach pioneered the concept of “Direct Recruiting” by creating an online career networking platform, which raised the transparency and efficiency of the professional recruitment market in Japan
